Healon5 OVD delivers a great combination of viscomydriasis, procedural control, and endothelial cell protection in all of my cataract cases, especially IFIS cases. Regardless of the situation, the versatility of Healon5 OVD fortifies my belief that I am giving my patients the very best.

— Robert M. Osher, MD
Cincinnati, Ohio
Effectively Adapts to Your Surgical Needs

- Remarkable dual-property viscoadaptive properties provide unparalleled space creation and anterior chamber maintenance.
- Dispersive properties allow for outstanding protection of endothelial cells during phaco.
- Designed to maximize control throughout surgery.
- Helps provide better-controlled capsulorhexis,1 phacoemulsification,1,2 and lens placement.
- Ideal for floppy iris (IFIS) management.
  - Mechanically expands the pupil and stabilizes delicate iris tissue.4
  - Helps to block the iris from prolapsing to the incisions.5,6

"The ability of Healon5 to mechanically expand the pupil and to block iris prolapse have made it an excellent choice for IFIS."

— David F. Chang, MD
Los Altos, CA

Better Protection

Healon5 produced considerably less mean endothelial cell loss than Viscoat and Ocucoat OVDs.3

Better Control

Healon5 OVD maintains anterior chamber depth better than Viscoat OVD.1

Healon, The Name You Know and Trust

- The standard in reliability.
- Known and trusted for 28 years.
- Proven worldwide in more than 40 million eyes.
- Latex free for patient and staff safety.

Healon, The Family You Know and Trust

The Healon Family, your OVD solution for any situation.

References:

Healon viscoelastic is used in ophthalmic surgical procedures of the anterior segment, including cataract surgery with an intraocular lens, cataract surgery without an intraocular lens, or secondary intraocular lens implant.

Healon, Healon5, and Healon GV OVDs are used in ophthalmic surgical procedures to maintain a deep anterior chamber, which facilitates manipulation inside the eye with reduced trauma to the corneal endothelium and other ocular tissues.

Warnings/Precautions/Contraindications: There are no known contraindications to the use of Healon, Healon5, and Healon GV OVDs when used as recommended.

Please refer to package inserts for full prescribing information. Rx only.
